

# Retrieving Magazine Articles from EBSCO

Maui Community College Library

## 1. Accessing EBSCO's MasterFile Premier Database

- a. From any Internet-accessible computer (on or off campus), go to the MCC Library Homepage at: [www.maui.hawaii.edu/library/](http://www.maui.hawaii.edu/library/)

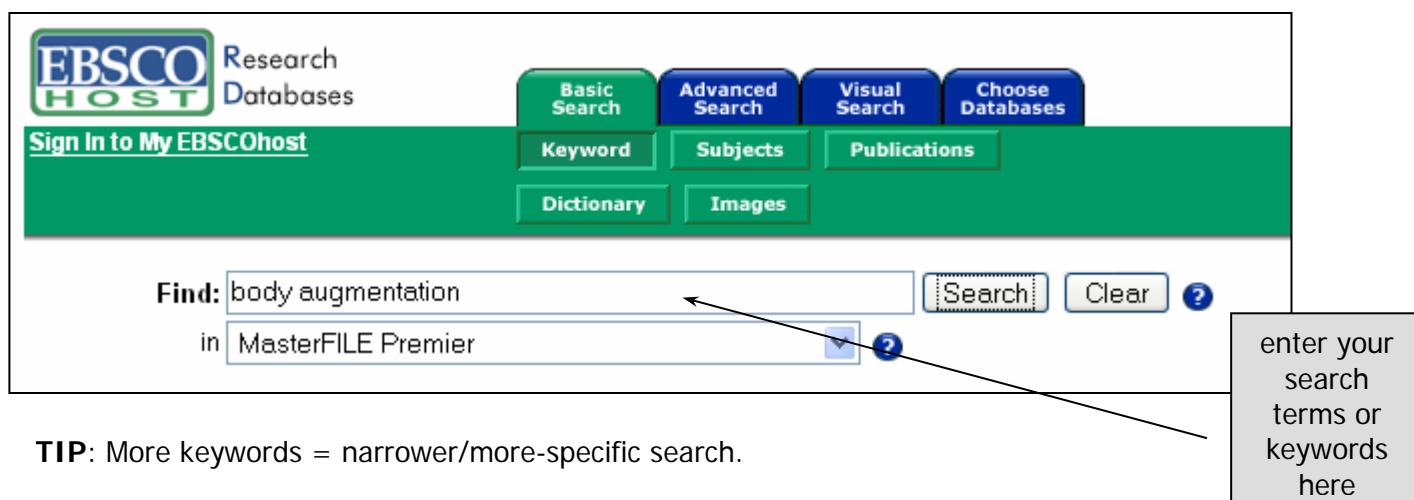

- b. Under the **SEARCH OUR COLLECTION** heading, click **EBSCO**. The alphabetical listing of all EBSCO databases appears.

If you are accessing EBSCO outside of the MCC campus, you will be asked to enter your barcode number (the number on the front of your Student ID) and your last name.

- c. Scroll down the list of EBSCO databases until you see **MasterFILE Premier**. Click on the title of this database to access it.

## 2. Performing a Search

To perform a search, **enter your search terms** (a keyword or phrase) in the Find field and click **Search**. EBSCO will search for articles containing ALL of your keywords.

**TIP:** More keywords = narrower/more-specific search.

## 4. Result List Features

- a. By default, the Result List displays the search results (or “hits”) according to **Relevance**. To re-sort the results based on date (the most recent articles first) rather than relevance, select **Date** from the **Sort by** drop-down option at the top, right of the screen.
