Read Owner’s Manual before operating any cart.

**UTILITY CART GENERAL SAFETY RECOMMENDED CHECKS**

Park Utility Cart on level surface. Read operator’s manual for your Cart.

Daily before use:
- Walk around entire golf cart and visually inspecting for damage
- Visually inspect all tires for condition and inflation (Maximum inflation pressure is located on sidewall of tire. DANGER: Be familiar with safe procedure for tire inflation).
- Take careful notice of any smell of gasoline or other unusual odors.
- Sit in operator’s seat and move steering wheel from side to side checking for loose play.
- Depress brake pedal to check for firmness and proper travel of pedal.
- Release and re-apply parking brake ensuring proper operation.
- Turn on ignition switch and check operation of back-up alarm.
- Check fuel gauge and follow safety precautions to refuel before use if needed.
- Open engine compartment to perform visual inspection.
- Take notice for any loose parts and misplaced, damaged, or corroded wiring.
- Visually inspect for any sign of fluid leaks.
- Check engine oil for proper fill level (never overfill engine oil).
- Check all electrical cords, battery and the connections.

Beginning Travel
- Be certain all cargo is secured.
- Sit in operator’s seat and buckle seat belt if equipped by manufacturer.
- Insure parking brake is applied and shift control is in the neutral position.
- Start engine as recommended by manufacturer.
- Inspect that the pathway is clear in both directions of possible travel.
- Release parking brake and keep pressure applied to service brake pedal.
- Try shifter all positions, checking back-up alarm for a second time.
- Insure shifter is in the proper position for the anticipated direction of travel.
- Remove foot from brake pedal and slowly depress accelerator pedal.
- As vehicle begins to move, remove foot from accelerator and push brake pedal to stop vehicle, performing a moving brake check.
- If any unusual noise, vibration or odor is detected while driving, safely stop the cart.

*DO NOT OPERATE THE UTILITY CART if the inspection reveals any unsafe condition.
*Consult your Owner’s Manual for your particular golf cart and amend this list as needed.
*Contact your authorized dealer for questions regarding safety and maintenance.
