EOC services include career assessment and educational information, college catalog information for Hawaiʻi and mainland schools, financial aid, and information and application assistance for grants, loans, and scholarships. Weekly outreach visits are made to local high schools and community agencies.

Personal Counseling

Counselors assist students with personal, social, or college-related problems and help them assess personal growth and development.

Graduation Application Assistance

Counselors are available for assistance in applying for graduation. It is highly recommended that prior to the final semester students make an individual appointment for this important check of their academic progress toward completing requirements for the degree or certificate. An Application for Graduation form and degree fee must be submitted to the Cashier's Office by the deadline stated in the Academic Calendar (*see page 144*).

Transcript Evaluation

Counselors review past academic records to assess applicability toward degrees and certificates offered at the College. Students must have official transcripts sent directly to the Maui CC Admission and Records office, and then make an appointment for an official evaluation. Students may need to provide the prior college catalog, course descriptions, and other information.

College Transfer Information

Counselors provide information regarding transferring to other colleges. Early discussions with a counselor result in a detailed list of requirements for later degrees. Often this process involves a

blend of career, academic, and personal counseling and planning so Maui CC courses will transfer and fulfill requirements at subsequent institutions.

Poʻokela Project

The Poʻokela Project works to promote student academic, career, and cultural development through an array of support activities, instruction and curriculum development. The project works directly with a cohort of 30 Hawaiian students in Career and Technical majors per semester. Student cohort activities include academic advising, internships, student stipends, and a variety of instructional based academic, career, and cultural development opportunities.

Poʻokela also works with high school students through summer bridge programs. The summer bridge model integrates academic rigor with personal, career, and educational development and cultural responsiveness. Using career and technical education as a vehicle, the ultimate goal of the summer bridge is to motivate students to realize their potential and *kuleana* (privilege, right, or responsibility) as Hawaiians and promote positive and productive lifestyles.

✋ For more information, call the Poʻokela program coordinator, Kaleikoa Kaeo, at 984-3369.
