Information Retrieval & Technology
Information retrieval and technology are integral parts of every content area and discipline. Generally, students should be able to access, evaluate, and utilize information effectively, ethically, and responsibly. Specific outcomes in information retrieval and technology may include:

1. Use print and electronic information technology ethically and responsibly.
2. Demonstrate knowledge of basic vocabulary, concepts, and operations of information retrieval and technology.
3. Recognize, identify, and define an information need.
4. Access and retrieve information through print and electronic media, evaluating the accuracy and authenticity of that information.
5. Create, manage, organize, and communicate information through electronic media.
6. Recognize changing technologies and make informed choices about their appropriateness and use.

Quantitative Reasoning
Quantitative reasoning can have applications in all content areas and disciplines. Generally, students should be able to synthesize and articulate information using appropriate mathematical methods to solve problems and logically address real-life situations. Specific outcomes in quantitative reasoning may include:

1. Apply numeric, graphic, and symbolic skills and other forms of quantitative reasoning accurately and appropriately.
2. Demonstrate mastery of mathematical concepts, skills, and applications, using technology when appropriate.
3. Communicate clearly and concisely the methods and results of quantitative problem solving.
4. Formulate and test hypotheses using numerical experimentation.
5. Define quantitative issues and problems, gather relevant information, analyze that information, and present results.
6. Assess the validity of statistical conclusions.

Liberal Arts Program
Students completing the liberal arts program earn an Associate in Arts (AA) degree.

Associate in Arts Degree (AA)
As part of the mission of UH Maui College to offer affordable, high quality educational opportunities to a diverse community of lifelong learners, the college has developed a flexible and comprehensive AA degree.

The AA degree is a two-year liberal arts degree, consisting of at least 60 semester credits numbered 100 level or higher. The AA provides students with the foundation skills and breadth of understanding and experience that will make it possible for them to function successfully, both as citizens and as lifelong learners. They will have skills in English communication, both written and oral; in numerical and symbolic reasoning; in global/multicultural perspectives; and in basic computer functions. In addition, students will develop an appreciation of ethical principles; interpersonal skills; and an awareness of civic and social responsibilities. Respect and appreciation of cultural diversity will be fostered through an understanding of global, regional, and local perspectives.

While completing their AA degrees, students will have the opportunity to explore areas of special interest. Courses with service learning components are available throughout the AA curriculum.

Specific Student Learning Outcomes (SLOs) for the AA Program include:

1. Students should attain awareness and knowledge of ecosystems and environmental issues.
2. Students should attain awareness and knowledge of Hawai‘i’s multiple dimensions.
3. Students should attain an awareness and knowledge of the multiple dimensions of the Asia/Pacific region.
4. Students will attain a broad knowledge of the diversity of human conditions and cultures in local and global communities.
5. Students will attain a broad understanding of the individual in relation to behavior, ideas and values.

## Foundations/Skills

Foundations/Skills are the base for all other courses and experiences. Therefore, students should complete introductory Foundations/Skills requirements early in their collegiate studies.

UH Maui College participates in the UH multi-campus Foundations Board agreement that allows transfer of courses to a number of other schools in the UH system (UH Mānoa, UH West Oahu, Honolulu CC, Kapiolani CC, Leeward CC, Windward CC).

D. Cumulative GPA of 2.0 for all AA courses
Students may use a course to fulfill graduation requirements in more than one category. (Courses used to satisfy Foundations 1 Requirements may not be used in other categories.)

UH Maui College recognizes that some students may have already attained some of the skills required in the AA. If a test has been established, it is possible to test out of the requirements in Written Communication and Computer Skills. A student who successfully tests out of classes will need to take the appropriate number of credits as electives to complete the 60 credits required of the AA degree. Students wishing to test out of the Written Communication requirement must complete the testing process before registering in courses that have English 100 as a prerequisite.

E. Total Credits: 60 Credits
(all at 100 level or higher)
These maximums may be applied:
- 9 credits Cooperative Education and Work Practicum;
- 30 credits CR grade.*
Interdisciplinary Studies courses do apply. *Note: Courses taken for CR will not count toward core major requirements at UH Mānoa or toward major requirements at UH Hilo. See UH Mānoa and UH Hilo catalogs for programs of study to meet their general education requirements.

F. Graduation Requirement
To be awarded the AA degree, a student must complete an Application for Graduation form obtained from Student Services. See Academic Calendar on page 152 for deadline.

G. Residency Requirement
12 credits in the major must be earned at UH Maui College. The residency requirement may be waived for cause or credit-by-examination used with approval of the Vice Chancellor of Academic Affairs.
