Mobilizing a new generation of Sakadas: International Mobility Ready Study Abroad Program (I.M. Ready)

A MAJOR DONOR CAMPAIGN

UNIVERSITY OF HAWAII MAUI COLLEGE STUDENT AFFAIRS
International Center for Innovation and Research
It takes a village...

This year, the University of Hawaii Maui College’s Kabalikat Council, a group of community-minded Filipino leaders on Maui, has set a goal to raise funds to shoulder student travel and learning expenses associated with the I.M. Ready program under the UHMC International Center for Innovation and Research.

We agree that travel is instrumental in the holistic development of a student, from attending classes in a partner university abroad and experiencing the food, culture and lifestyle of its people. We want to support the inaugural cohort to experience this first hand, and bring back stories to inspire.

We have identified the students, who were screened through an application process, to be part of the inaugural cohort. The students will be attending classes in some of our partner universities in the Philippines, and will formally be introduced at a fundraiser dinner on January 19, 2018 at the Lei’s Family Class Act restaurant at UH Maui College Pa`ina Building.

We’ll take care of all the details, but we need your financial help. This major donor campaign is an investment in our students, and a promise for Maui’s future in the global community.

Every dollar donated will help us reach our goal. Please review the attached major donor levels and benefits, and contact Kit Zulueta at zulu@hawaii.edu at (808) 984-3398 for any questions.

Sincerely,

GRELYN ROSARIO
Kabalikat Council Chair

Fundraising Dinner

Friday, January 19, 2017 5:30 p.m.
Leis Family Class Act, Pa`ina Building
UH Maui College

A fundraising dinner for the benefit of the UHMC International Center for Innovation & Research I.M. Ready immersion program. The inaugural cohort for the Summer 2018 program will be introduced at this event.

For more information: (808) 984-3398

www.mau.hawaii.edu/imready
“The opportunity to rediscover one’s roots, while earning valuable resume content and international sensibilities on innovation, culture and community, are among the higher education options we wish to offer our students,” said UHMC Chancellor Lui Hokoana. “I also invite the community’s support, as we embark on a fundraising campaign to make this vision into reality.”

We see UHMC students as responsible global citizens who act locally by being:

- Insanely resilient
- Compassionately human
- Extremely resourceful
- Fiercely creative
- Culturally rooted
Changing the narrative

UH Maui College officials visited universities in the Philippines in October to renew, solidify relationships, and build educational tracks for its study abroad immersion program called I.M. Ready.

The I.M. Ready immersion program, which stands for 'International Mobility,' aims to empower students by providing them opportunities to gain global experiences, expand their network and build lasting relationships beyond the islands of Maui County.

With your support, we can help get our students ready for careers in the global community.
Maraming salamat po!
