

Strategic Plan Action Strategy
Team E
Report for 2004-05

Action Strategy: Acquire needed equipment to meet the on-going technological needs of the college campuses on the three islands.

Team Members: Eric Engh, Bob Wehrman, Lisa Sepa, Shane Payba, Ron St. John, Marti Wukelic

Team Leader: Bob Wehrman

Responsible Person: David Tamanaha

Our team met and after discussion it was determined that this action strategy is being handled by the campus committee on Technical Support. Several of our team members are members of this committee so we felt that it would be a duplication of effort to keep this team active. This decision was agreed to by our administrators.
