How is data tracked for Student Training?
As of 3-11-17, 199 UHMC employees have completed this course	UH OIE	None	UH OIE	0	N/A	Intersections trains employees to recognize, prevent, and respond to workplace harassment and discrimination based on "protected characteristics." The course also helps employees address inappropriate behavior before it creates a "hostile work environment" by giving employees the skills necessary to reduce potential legal risks by recognizing and addressing abusive behavior and other misconduct, including microaggressions and unconscious bias, that may lead to workplace bullying or hostility, reducing productivity and creativity. Intersections invites employees to consider the nature of harassment and discrimination, and provides practical tips on creating a safe, inclusive environment for work, including safe and positive options for bystander intervention.	online
