

NURS 211 – Professionalism in Nursing I

Fall 2017

Class #4 and 5: Documentation, Technology & Informatics

Lesson Learning Objectives:

- Define the concepts of technology and informatics.
- Explore historical and contemporary events shaping the use of technology and informatics in modern health care delivery.
- Relate the use of Electronic Health Records (EHR), Computerized Provider Order Entry (CPOE), and Clinical Decision Support (CDS) to maintaining quality and safety of patient care.
- Describe the duty of a nurse to maintain client confidentiality and privacy as it pertains to electronic medical records.
- Identify legal and professional standards affecting social media use by health care providers.
- List the characteristics of high quality documentation.
- Recognize the need to use approved abbreviations and standard terminology when documenting care.

Classes 4 and 5: Monday, 10/9, 0830-1020 and Monday, 10/16, 1130-1300			
Student Learning Outcomes (from Syllabus): 1, 2, 3, 7, 8, 9
