

SOPHOMORES!

PRE-PLAN FOR SUCCESS

RESEARCH, RESEARCH, RESEARCH!

You've got EXPERIENCE!

Congratulations! Your freshman year is now over! You are no longer the newest body on your campus, which means you should have some idea of academic areas that interest you. Use this as a basis to look into potential college and career majors for your future!

RIGOROUS CURRICULUM

Enroll in a Foreign Language Class

Colleges appreciate efforts to challenge yourself in new ways. Do this by taking a Foreign Language class to make yourself more appealing to future colleges. Take at least 2 years worth!

PRACTICE MAKES PERFECT!

PSAT & SAT/ACT PREP

Talk to your UB advisors and high school counselors about enrolling in the PSAT, or taking alternative SAT/ACT prep courses. Trust us! You'll be glad you made the decision to prepare now rather than later!

AVOID SOPHOMORE SLUMP!

Its only awkward, if YOU make it awkward

You're not a new freshman anymore, and you're not yet a Junior making solid decisions for your future either. So, where does that leave you? Don't Fret! You're on a roll! Continue to attend as many UB events as possible to keep your motivation up!

AS ALWAYS, ATTEND UB SUMMER ACADEMY!
